**Re: Intel Corporation, Aloha and Ronler Acres Campuses, ACDP 34-2681-ST-01
Calendar Year 2016 GHG Emissions Report**

In accordance with the requirements set forth in Oregon Department of Environmental Quality (ODEQ) Permit ACDP 34-2681-ST-01 Condition 76 and as required by Oregon Administrative Rules (OAR) 340, Division 215, Intel Corporation (Intel) is submitting this annual greenhouse gas (GHG) emissions report for calendar year 2016. It should be noted that the reported emissions of GHGs are the total emissions including both the Ronler Acres and Aloha Campuses and calculated based on the Global Warming Potentials (GWPs) specified in Permit Condition 49.e. GHG emissions in 2016 are below the Plant Site Emission Limit (PSEL) of 819,000 short tons (ACDP Condition 49). This annual GHG emissions report is being submitted in a timely manner on or before March 31, 2017.

A separate report will be submitted using the on-line EZ-Filer tool through Oregon DEQ's website. In addition to these reports submitted to Oregon DEQ, Intel will be submitting GHG emissions for 2016 through EPA's e-GGRT (EPA Greenhouse Gas Reporting Program) related to the GHG Mandatory Reporting Rule (MRR). Please contact me (stephanie.b.shanley@intel.com; 503-319-6285) or Rafe Christopherson (rafe.a.christopherson@intel.com; 503-329-0649) if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Stephanie Shanley".
